

1st Boston Meeting

Boston, Massachusetts
May 11, 2018

On Friday May 11, Ivan and Milena went to Boston to introduce SAMA to a group of local healthcare professionals. The presentation was followed by a lively and engaging discussion on how best to unify Serbian-American physicians to expand SAMA's potential to help people across the Balkans. We feel very optimistic after our meeting and are already working towards procuring funding for project in Kragujevac!
